INDEX

ABSTRACTS of scientific papers presented at the Marine Biological Laboratory, summer of 1946, 210.

Activity and oxygen consumption of the goldfish and its application to the measurement of respiratory metabolism in fishes, 312.

Amaroecium constellatum, II, 66.

Annual report of the Marine Biological Laboratory, 1.

Arbacia eggs, the effect of low temperature and of hypotonicity on the morphology of the cleavage furrow, 272.

Artemia salina, the space-time pattern of segment formation in, 119.

BEERS, C. D. Tillina magna: Micronuclear number, encystment and vitality in diverse clones; capabilities of amicronucleate races, 256.

BODENSTEIN, DIETRICH. Developmental relations between genital ducts and gonads in Drosophila, 288.

BROWN, FRANK A., JR., AND LORRAINE M. SAIGH. The comparative distribution of two chromatophorotropic hormones (CDH and CBLH) in Crustacean nervous systems, 170.

CARRIKER, MELBOURNE ROMAINE. Observations on the functioning of the alimentary system of the snail Lymnaea stagnalis appressa Say, 88.

CHEN, TZE-TUAN. Temporary pair formation in Paramecium bursaria, 112.

Chromosome movement, hydrostatic pressure effects upon the spindle figure and, 145.

Ciliates of the family Ancistrocomidae Chatton and Lwoff, III, 189.

Ciliates of the family Ancistrocomidae Chatton and Lwoff, IV, 200.

Cleavage furrow in Arbacia eggs, 272.

DDT, loci of action in cockroach (Periplaneta americana), 247.

Drosophila, developmental relations between genital ducts and gonads in, 288.

ELECTRON microscope observations of the trichocysts and cilia of Paramecium, 141.

GIESE, ARTHUR C. Comparative sensitivity of sperm and eggs to ultraviolet radiations, 81.

HABROBRACON, a strongly intersexual female in, 243.

HALL, C. E. *See* M. A. JAKUS, 141.

Histological study of Syndisyrinx franciscanus, an endoparasitic rhabdocoel of the sea urchin, 295

Hormones (CDH and CBLH) in Crustacean nervous systems, the comparative distribution of two chromatophorotropic, 170.

INFLUENCE of texture and composition of surface on the attachment of sedentary marine organisms, 57.

JAKUS, M. A., AND C. E. HALL. Electron microscope observations of trichocysts and cilia of Paramecium, 141.

KOLLROS, J. J. *See* J. M. TOBIAS, 247.

KOZLOFF, EUGENE N. Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha, suborder Thigmotricha). III. Ancistrocoma pelseneeri Chatton and Lwoff, Ancistrocoma dissimilis sp. nov., and Hypocomagalma pholadidis sp. nov., 189.

KOZLOFF, EUGENE N. Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha, suborder Thigmotricha). IV. Heterocineta janickii Jarocki, Heterocineta goniobasidis sp. nov., Heterocineta fluminicolae sp. nov., and Enerthecoma properans Jarocki, 200.

LEHMAN, H. E. A histological study of Syndisyrinx franciscanus, gen. et sp. nov., an endoparasitic rhabdocoel of the sea urchin, Strongylocentrotus franciscanus, 295.

Lymnaea stagnalis appressa Say, observations on the functioning of the alimentary system of the snail, 88.

MARINE Biological Laboratory, annual report, 1.

Marine Biological Laboratory, program and abstracts of scientific papers presented, summer of 1946, 210.

MORRISON, PETER R. Physiological observations on water loss and oxygen consumption in Peripatus, 181.

OXYGEN consumption and water loss in Peripatus, 181.
Oxygen consumption and activity of the goldfish, its application to the measurement of respiratory metabolism in fishes, 312.

PARAMECIUM bursaria, temporary pair formation in, 112.
Paramecium, electron microscope observations of the trichocysts and cilia of, 141.
PEASE, DANIEL C. Hydrostatic pressure effects upon the spindle figure and chromosome movement. II. Experiments on the meiotic divisions of Tradescantia pollen mother cells, 145.
POMERAT, C. M., AND C. M. WEISS. The influence of texture and composition of surface on the attachment of sedentary marine organisms, 57.

SAIGH, LORRAINE M. *See* FRANK A. BROWN, JR., 170.
SCOTT, ALLAN. The effect of low temperature and of hypotonicity on the morphology of the cleavage furrow in Arbacia eggs, 272.
SCOTT, SISTER FLORENCE MARIE. The developmental history of Amaroecium constellatum. II. Organogenesis of the larval action system, 66.
Society of General Physiologists, papers presented at the meeting of, 236.
Spindle figure and chromosome movement, hydrostatic pressure effects upon, 145.
SPOOR, W. A. A quantitative study of the relationship between the activity and oxygen consumption of the goldfish, and its application to the measurement of respiratory metabolism in fishes, 312.
Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha, suborder Thigmotricha). III. Ancistrocoma pelseneeri Chatton and Lwoff, Ancistrocoma dissimilis sp. nov., and Hypocomagalma pholadidis sp. nov., 189.
Studies on ciliates of the family Ancistrocomidae Chatton and Lwoff (order Holotricha, suborder Thigmotricha). IV. Heterocineta janickii Jarocki, Heterocineta goniobasidis sp. nov., Heterocineta fluminicolae sp. nov., and Enerthecoma properans Jarocki, 200.

TILLINA magna: Micronuclear number, encystment and vitality in diverse clones; capabilities of amicronucleate races, 256.
TOBIAS, J. M., AND J. J. KOLLROS. Loci of action of DDT in cockroach (Periplaneta americana), 247.

ULTRAVIOLET radiations, comparative sensitivity of sperm and eggs to, 81.

WEISS, C. M. *See* C. M. POMERAT, 57.
WEISZ, PAUL B. The space-time pattern of segment formation in Artemia salina, 119.
WHITING, P. W. A strongly intersexual female in Habrobracon, 243.
